SUMMARY

10+ years software engineering experience
2 years management experience: hiring, leading and rapidly improving teams
20% average scope reduced on projects, shipping months faster
2x team velocity with process improvements
Shipped projects from 0-1 to 1M+ users
Shipped over 100 A/B experiments in a year
I love simplifying, running retros, rapid prototyping, results and unleashing the potential of teams

EXPERIENCE

Splice — Engineering Manager, Marketing Engineering | 2024–2026

- Led team of 6 for Splice's dot com experience - improving Conversion
- Shipped 100+ A/B experiments, redesigns, GTM experiences, migrations, and platform improvements driving customer acquisition - partnering with Product, Design, Marketing + Data
- Drove AI adoption while mentoring engineers and removing technical and organizational blockers

Splice — Senior Software Engineer | 2020–2024

- Launched Create, an AI music creation product, from 0→1
- Launched Skills, an education platform, from 0→1

Various Agencies — Front End Engineer | 2014 - 2020

- Built web experiences for 100s of clients translating designs to pixel perfect executions

EDUCATION

UCLA (2004 - 2008) — B.A., Film Production (Documentary)
The Creative Circus (2012 - 2013) — Front End Development
